WORKING WITH YOUR SPIRITUAL GUIDE

Directions:

1. Call forward your Divine Energy from within. It is always present, and light a white or light pink candle
2. Write down your intention beginning with "I am creating"
3. Call forward your spirit guides
4. Write and speak your intention out loud to your spirit guides
5. Say to your guides "I know since I have asked you, you are already working on this."
6. Give thanks and let go. There is nothing more to do except wait.
7. Know and trust you will receive what you are creating.
8. Whenever a negative thought pops in the mind after this point just say "Oh silly mind I have handed that over!" . You can thank your spirit guides each day for the work you know they are already doing for you.
9. It's good to look at your intention each day to stay aligned with what you are creating. You may also light the candle each day as you do this.

Background Information

- Your spirit guides are with you from birth to death.
- You have at least 7 Guides.
- You chose each other before coming to the planet.
- They are pure energy forms and they exist within your own consciousness and auric field. They never leave you. You are never alone.
- They serve the Creator and Creation and they must help you anytime you say “I am creating”.
- You hold the Creator Energy in every cell of your body.
- To create something new in your life all you need to do is say you are creating whatever it is. To do this you write down your intention being very specific. Your intention must begin with the words “I am creating”.
- Often, just before the spirit guides are about to deliver exactly what we have asked for events may happen that make it look like it has all been in vain. It’s almost like a test so please pay no mind to any events that happen that seem against what you have asked for. This is where your total trust comes in and you do not doubt for a second that what you’ve asked for will be delivered. Usually it’s right on the back of what seems to be happening against our wishes. Trust with a capital “T” that what you are creating is yours to have.
- Trust with love - trust with love - trust with love.
